

GE Real Estate joins forces with Tishman International for the development of project Sofia Airport Center, announced money.bg

Project is certificated by 'Leeds' and is on amount of 250 million EUR.

Sofia Airport Center is multifunctional project with office buildings, hotel, logistics objects and light industry activities. The center will take near Sofia Airport.

After finalizing of the building, the place will offer 180, 000 square meters trade surface in two- and three flour buildings.

This is the biggest for the moment, project, in which GE Real Estate participates, after gaining of Mall Sofia and Mall Plovdiv.

The shares of the joint venture are divided 50: 50, says Alan D. Levi, President of Tishman International.

'This is first such project for our company in Bulgaria, and our intention is to develop in the retail trade business. For the moment our efforts are pushed towards Sofia, but we are looking forward to Plovdiv, Ruse, Burgas and Varna', added Levi.

According to investors there is already showed interest by some big companies for renting of office areas. Architecture project of Sofia Airport Center is act of Cigler/Marani Architects and ProArch.
