

Title: SHOWROOM OPENED AT SOFIA AIRPORT CENTER

Investment company Tishman Management opened today a showroom at the Sofia Airport Center business park that is currently being constructed.

The Marketing suite, as it is called, spreads on 480 sq m. Brokers, investors and tenants will have the opportunity to see in advance what Sofia Airport Center will be like. A full range of options for space planning and interior design and impressive selection ranging from floor coverings and tiles to lights will be on display, explained Julian Edwards, Tishman's General Manager.

Construction of business park Sofia Airport Center started in the beginning of June on Christopher Columbus Blvd near Sofia airport's new terminal.

The investment amounts to EUR 250 M. The built-up area of 165 000 sq m will comprise A-class offices, logistics center and 250 room hotel.

The project's first phase is due for completion in September this year when the logistics part will be inaugurated. The first office premises will be completed in 2009.
